Statement of Norberta Greywind

Savanna would have been an amazing mother and she was an awesome daughter. This man took something that can't brought back. He devastated our family. Every day is a struggle. Savanna's pregnancy was planned. It was so cruel to take that joy from our family. We want justice. He deserves a life sentence.

I don't think this man should ever walk free. He betrayed our family. He looked us in the eye with a straight face while our daughter lay dead in his apartment.

Please never consider letting him out. My daughter is gone because he wanted a child at any cost.

I won't use his name because this man had no consideration or even basic respect for my daughter and I will not grace him by saying his name.

My entire family will never be the same because of the defendant's action...we love in constant fear of being betrayed, preyed on. I just fear that people want to hurt my family. This is no way to live life. My life has been forever changed. As for Savanna's daughter, this man tried to take her and raise her as his own. He said the days he spent with MY granddaughter were the happiest days of his life. How sick is that? It was just disgusting.

We are counting on you your honor to do justice. Thank you.

Norberta Greywind
(Mother of Savanna)
