Statement of Mahim Khan

I would like to thank everyone who made today's victory possible - Nathan, Gloria, Dolores, Renee, John, David, Angie and Ashley. I'd also like to thank the witnesses, court staff, the Judge and the jurors.

I hope the punitive damages verdict sends a message to Alki David to never, ever think of violating another woman's body. EVER. I hope that he realizes there are consequences for his vile actions. And also to warn others of what he is capable of if they are ever to cross paths with Alki David.

I believe this verdict is a reminder to predators everywhere to not think they can get away with hurting others.

I would like to encourage others to speak up, especially women, Muslim women or women of other faiths who believe they must suffer in silence. You do not have to suffer in silence. All humans deserve safety.

I'd like to once again thank the jury for validating that the horrific experiences and the degradation I suffered were real.

I've lost five years of my life and have a lot of healing to do. I am looking forward to continued therapy, volunteering, working and eventually moving back to LA once I feel safe to do so.

Thank you everyone for your time.

MAHIM KHAN
