Statement of Roxy Fisher

I would like to take this opportunity to thank Universal Studios. Not only did they apologize to Kayla and me, they took accountability. I'm so happy that they took the time to have a meeting, apologize, and make changes so that this will not happen again.

I think that this was also a learning experience for not only me, but also for other girls as well.

I hope that they will understand that if they see something is wrong, they can speak up and be heard.

When they do they too can win change.
