### **Statement of Daniel Ramos**

Your Honor, I feel that Kanye West should be sent to jail for his attack on me at LAX airport on July 19, 2013. He was prosecuted for Criminal Battery and Attempted Grand Theft on me and my camera that I was holding onto as I was working as a professional media videographer. I was only doing my job, and he broke the law. Your honor I believe that if I did to him what he did to me I would have been put behind bars. Thank God I don't attack people. It's now been over 7 months and I'm still suffering and taking medication as a result of the attack on me by Kanye West. I am still experiencing pain in my right hip area and other parts of my body and am suffering mentally and emotionally. I also feel like my life has been threatened by Kanye West by saying to paparazzi / media on the "Jimmy Kimmel Live" show, "It's not safe for you in the Zoo...Never think I'm not from Chicago, for one-second," October 9, 2013. I strongly feel that Kanye West might retaliate against me. The evidence of his attack on me is clear and was all caught on video. I also feel that Kanye West used me and attacked me in order to promote his New "Yeezus" album that he released a month before he attacked me and to promote his "Yeezus Concert" dates afterwards. Kanye needs to be stopped before he could seriously hurt someone else worse than he hurt me. I did nothing wrong. I simply asked him a question and did not use any vulgar language towards him or his family, and in fact I gave him a compliment that he was cool. Thank you your Honor and God bless.
