Statement of Terence Steiner, Former Student at UNCSA

My name is Terence Steiner. I was involved with NCSA from 1983 to 1988. I was groomed by two teachers for sexual abuse starting at the age of 12. This case is my labor of love and is very important because we must be sure this has stopped and that no child shall suffer under this weight. I endured years of sexual abuse by my teachers. The impact on my life has been devastating. I attempted suicide two times. I hope that by speaking out we can be sure this never happens again. I am grateful to the other victims who are coming forward and the many faculty and staff members who are coming forward and telling the truth to help right this terrible wrong.
