### Statement of Grecia Palma

On November 9<sup>th</sup>, 2023 approximately at 9:30 in the morning, my life took an unexpected turn. I had visited my storage unit and as I was driving away in my car I encountered Nathaniel Radimak. When I was simply driving through to exit like I always do. I was in my car minding my own business when I noticed his Tesla on the left side of me. I also noticed a hitch from a boat on my right. I cautiously turned left towards his car to avoid going near the boat, this appeared to make him very upset. He came out of his vehicle with such rage! threatening me, telling me countless times to go outside, and I quote, " I'm going to break your fucken jaw bitch," He lunged towards me while my car window was open. He then continued to threaten me and make racist remarks. I was completely in shock but somehow managed to speak to him to try to make the situation better and was able to exit. I ran straight into the storage facilities office, scared he might follow me home. They assured me I was safe and that they will be revoking his rental of the unit. I immediately wanted to make a police report, so I left only to see Radimak following me. I was at the red light when he came out of his Tesla threatening me yet again. So, I go back to the unit terrified to go anywhere else. I called my partner who was at the unit to meet me at the office. I made a police report that same day.

This experience has left me in a complete state of panic and worried to even step outside. It has changed my life drastically, making it hard to do daily tasks without worry. I am constantly reaching for my purse to make sure I have my pepper spray in hand. Every time I step back into the unit, I'm reminded of the situation making it difficult for me to do my job, anxious he will be around waiting for me and quite honestly traumatized by any Grey Tesla I see.

After I made the police report I heard nothing about the status until a plea deal was made. This was the first time that I even knew a felony charge was filed for me was when the media contacted me. They also mentioned that a plea deal had been made with a maximum sentence that the defender might have to serve was 5 years. I had never been previously notified by the prosecutor about this and I was not consulted nor asked for my feelings about that deal that was being considered by the district attorney. The media was alerted before anyone which feels disrespectful to me. A 5 year sentence is nothing and I would have like to give my victim impact statement at the sentencing but since the district attorney's office never told me when that sentencing would take place I missed the opportunity to give my statement. I was never notified , I feel the system has failed me again,
