Statement of Jane Doe 12

I was a caregiver for my mother. She suffered from dementia. I had metastatic breast cancer. My sister and I decided to fly from Salt Lake City to support a children's charity cancer benefit. Afterwards, one of the hosts said everyone should go to the Rainbow Room because the restaurant is well known for their pizza.

Mr. Jeremy offered to show me the famous kitchen where they make the pizza. Instead, he pulled me into what I later found out was a private employee bathroom. He violently sexually assaulted me which caused a great deal of pain and suffering emotionally and physically because of my breast cancer.

Mr. Jeremy should suffer as I have. He imprisoned me emotionally for the rest of my life. He belongs in prison and should never be released.
