Statement of Gloria Allred

I have come to the protest against Bill Cosby in Atlanta today to support those who are protesting Bill Cosby's "Far From Finished" Concert Tour and to deliver a message to Bill Cosby.

Mr. Cosby, what you did behind closed doors to women is now viewed in the light of day. You preyed on women and victimized them. You used your television created fictional sit-com image to gain the trust of women and then targeted and preyed upon them. You betrayed their trust, deceived them and victimized them. You hurt them, your family and your legacy.

You will forever be remembered as the sexual predator that you are, rather than the lovable father figure Dr. Huxtable, whom you portrayed. You may escape the justice system but you have brought shame upon yourself and your legacy. You may never go to an actual prison but you will forever be known as the man who was accused of drugging and sexually assaulting more woman than anyone else in the history of our nation. Women are now empowered and will never be silent again.

Gloria Allred
Attorney at Law
Representing Numerous Alleged Victims of Bill Cosby
