Statement of Marcelino Hernandez

My wife and I are here to support our daughter through the terrible experience that she has suffered at what we thought at the time was going to be a dream vacation at the Hard Rock Resort.

The dream vacation has turned into a nightmare that we will never forget.

I am a retired police lieutenant and have seen firsthand what a traumatic event such as this does to a person. When I see how a resort that we trusted shirks its responsibility and does nothing to help my daughter get through this, it disgusts me.
