Statement of Amber Frey

The Court decided yesterday to sentence Scott Peterson to life in prison without the possibility of parole.

Laci's family, according to reports, requested that the prosecutor decline holding another trial to retry the death penalty phase. It has been reported that the family felt it would be too stressful.

I understand and support the family's decision. They are the living victims of Scott Peterson, and their feelings and decision should be respected. They have been very courageous throughout the many years since this tragedy.

I wish them the best and hope they find peace in the future.

Amber Frey

Represented by Attorney Gloria Allred
