## **Statement of Elizabeth Baczkiew**

Jessica was my daughter. She was loving and compassionate and so funny. She loved to make people laugh. She could always make people laugh. She tried very hard in school.

Jessica had 2 brothers, and they would always play together. She and her brothers were very close. Jessica loved riding her bike. She loved playing board games - Monopoly, Chutes and Ladders, Candy Land. She loved playing cards, especially spades and rummy. She loved cartoons.

She loved to sing. She would sing along with the radio and was in the choir at church.

She loved to cuddle with me and her brothers when she was younger. They would pile on the couch and watch TV.

I miss how she called me “mommy” and “mama”. It is a tragedy she never had children. Jessica would have made a great mother. She loved kids and loved working with them. She worked in the inner city with the kids in summer camp as an aide. She loved supporting kids and helping take care of them.

My family and I would like to thank the law enforcement and the D.A.'s office for all of their hard and diligent work on my daughter, Jessica's, case.

Jessica, my darling daughter, you will never be forgotten! You will always be missed! You will forever be in our hearts!
